Did you know that CAFOD believes that development must be sustainable, leading to change in our own lifestyles? *'A way of life that disregards and damages God's creation, forces the poor into greater poverty and threatens the right of future generations to a healthy environment and to their fair share of the earth's wealth and resources, is contrary to the vision of the Gospel.'* (Call of Creation, CBCEW, 2002). With your support, we continue to address the effects of the changing climate in prayer and action.
