Did you know CAFOD is working to improve the health and wellbeing of mums with HIV, and working to prevent them passing on the virus to their children? Mihret Mehari, a 32 year old mum from Ethiopia, discovered she has HIV positive, she started antiretroviral drugs and joined a HIV support project - supported by CAFOD. Mihret now attends a monthly coffee ceremony which provides information and enables people living with HIV to share experiences. She has even started her own small business. With the right knowledge, support and funding, women like Mihret can have health children and care for them
